Move Beautifully

Move Beautifully

Let's change mobility by mixing technology and art,
and good ideas with good design.

Let's show the world that functionality can be fun and
practicality can be beautiful.

Let's make the start button a trigger button
that every time is pushed, Monday mornings rides,
school runs, traffic jams, and last-minute-we-don't-have-
bread calls, are transformed into something exciting.

Let's keep elevating even the most mundane ride and
making the journey the best part of the day.

A UNIQUE STYLE

With MP3, the first three-wheeled scooter in the world, Piaggio created a new type of vehicle and a new way of getting around, introducing levels of safety and riding pleasure never achieved before.

Charming and unique in its style, Piaggio MP3 can also be ridden with a car driver's license*, for both the 300 cc and 500 cc engine versions.

Top-notch performance, easy to ride and the safety of three wheels: an intelligent choice to fully enjoy comfort, road holding and fun, in or out of the city, without problems. The Piaggio MP3 range is available in three versions: Business, Sport and Special Edition.

The Sport version is also available with only combined braking.

- Smoked windshield, height-adjustable to three positions
- Parking light with 7 high efficiency LEDs
- Wheel rims with elegant design featuring 5 split spokes
- Car style dashboard with digital display
- Leg shield back plate characterized by soft touch shock-absorbing elements coordinated with the saddle

EVEN MORE SAFETY

The Piaggio MP3 is the first 3-wheeler fitted with an ABS system specifically developed by Piaggio and Continental to guarantee maximum safety in any situation and on any surface, thanks to a sophisticated three-channel ECU. Further stability is provided by the innovative ASR Piaggio electronics system, which controls rear wheel slippage even on slippery surfaces. The vehicle's exclusive technology enhances an already unparalleled level of reliability and safety. The Piaggio MP3 features 13" front wheels with oversized 258 mm discs, an integrated pedal braking system, and patented front suspension for a unique driving experience. The Piaggio MP3 Sport is also available with only combined braking.

- ASR system to avoid rear wheel slippage on particularly treacherous surfaces
- Exclusive and patented Piaggio technology for the independent and swivelling front wheels
- "Roll Lock" kickstandless parking system with electronic front suspension locking mechanism for perfect balance even with the vehicle at a standstill
- 13" front wheels with oversized 258 mm discs

COMFORT AND FUNCTIONALITY

- Bike Finder with remote control to open the saddle from a distance and to find your vehicle in a crowded parking lot
- Dashboard with practical saddle opening control
- Three section glove compartment with USB port positioned under the windshield
- Underseat helmet compartment with assisted opening, spacious enough for 2 full-face helmets

Live, work and play in total freedom of movement with the Piaggio MP3. The ergonomics are top-notch thanks to a convenient saddle that provides a comfortable ride, even two-up. A built-in backrest and foldaway footpegs provide more room for the rider and greater comfort for the passenger. The 500 cc version is state-of-the-art in terms of rideability and performance, thanks to an electronic, multimap "ride-by-wire" system that lets you choose between a sporty riding style and one that is more consumption conscious at any time. The Piaggio MP3 is also available in the more accessible 300 cc 4-stroke, 4 valve version.

MP3 SPECIAL EDITION

- 500 cc, ei, 4-stroke, 4 valves
- ABS/ASR as standard
- Dedicated matt Grigio Titanio colour
- Graphics with details in blue and carbon look finishes
- Glossy and matt black parts
- New metallic footpegs with non-skid rubber inserts
- Saddle with new fabric and blue inserts

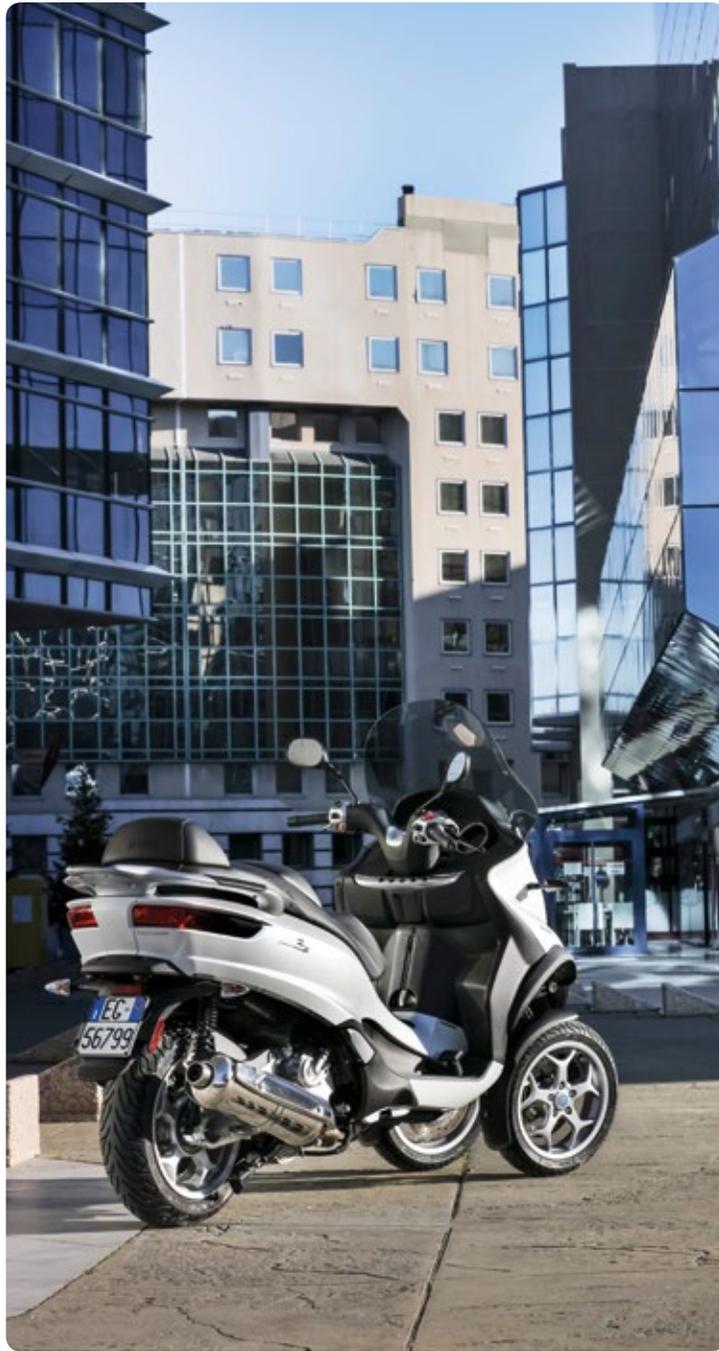

ALWAYS CONNECTED

PMP is the device that allows you to connect your Smartphone to the scooter, transforming it into a true multimedia platform.

For more information, go to:
www.multimediaplatform.piaggio.com

RICH RANGE OF ACCESSORIES

- 50-litre top box (can hold two full-face helmets)
- 37-litre top box (can hold one full-face helmet and one jet helmet)
- Top box bracket
- Leg cover predisposed for heating
- Heated hand grips
- Hand warmers
- Outdoor vehicle cover
- Quick-release thermoformed bags kit
- Comfort saddle
- Piaggio Multimedia Platform
- Piaggio Sound System
- TomTom Vio Piaggio Group Edition
- Electronic anti-theft system
- Multimedia and GPS bracket kit
- Smartphone Bracket
- Racing foot pegs kit
- PJ helmet with visor and sun visor
- PJ1 helmet with sun visor

** The Sport version is also available with only combined braking.

* MP3 can also be ridden with only a car driver's license. This is permitted pursuant to European directive 2006/126/EC, as long as the rider is at least 21 years of age, rides in the national territory and observes any additional national regulations. Ask your local dealer about the specific requirements in your country.

All of the vehicles are environmentally-friendly and compliant with European Community regulations limiting atmospheric emissions and sound pollution.

The company reserves the right to make technical and aesthetic changes at any time. Ride carefully, always wearing a helmet and suitable gear. Always comply with the rules of the road and respect the environment. Read the operating and maintenance manual carefully. Always ask for original and approved spare parts in accordance with prevailing standards. See your Official Piaggio Dealership and authorised Retailers for a sure purchase and for guaranteed service support. With original Piaggio spare parts you can be certain of quality and know that your vehicle's performance will remain unaltered.
